"Fruit-a-tives" Is Made From The Juices Of Apples, Oranges, Figs And Prunes; With Tonics.

## WONDERFUL RECORD OF A WONDERFUL REMEDY

Thousands Of Sufferers In England And Canada Owe Their Recovery To "Fruit-a-tives".

"Fruit-a-tives" is now made in the United States. This will be welcome news to thousands of people who have been sending to Canada for their supply of these famous tablets, which are made from the juices of apples, oranges, figs and prunes.

So great has been the demand for "Fruit-a-tives" from all parts of the United States, that the proprietors deemed it wise to establish a branch right in this country.

Offices and fruit tablet works are in active operation at Ogdensburg, New York from which point druggists and general stores are being supplied.

"FRUIT-A-TIVES" is the only medicine in the world made from fruit juices. An English physician in Ottawa discovered a process whereby fruit juices may be combined in such a way that the natural medicinal properties of fruits are many times increased.

"Fruit-a-tives" has many times proved its value in cases of Stomach, Liver and Kidney Trouble—in Rheumatism, Headaches, and Neuralgia—in Dyspepsia and Constipation—in Nervousness, general weakness and Skin Diseases.

"Fruit-a-tives" is sold by dealers at 50c. a box, 6 for \$2.50, trial size, 25c. or sent postpaid on receipt of price by Fruit-a-tives Limited, Ogdensburg, New York.

The strength of a Stetson is its lasting satisfaction; you will find it a true friend; for, it never roughens—even with hardest usage—but remains as slick and smooth as when it comes from the store.

Its shape will stand the hardest storms—soak it through—its shape comes back as promptly as a carrier pigeon. Its shape is fixed at the factory by boiling water; then how can a little cold water do it harm?

You just simply cannot wear a Stetson out: it's almost indestructible.

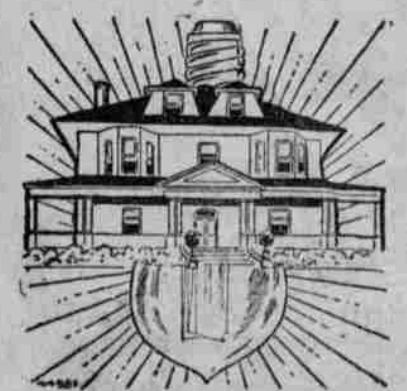

The fur is picked to pieces till its as fine as the down of a duck, then blown till all the short fur is taken out; this leaves long silky shining stock which is put pure into the hat: the result is a lasting finish.

### UNSHAKEN TESTIMONY

Time is the test of truth. And Doan's Kidney Pills have stood the test in Bennington. No Bennington resident who suffers backache, or annoying urinary ills can remain unconvinced by this twice-told testimony.

J. P. Toomey, blacksmith, Franklin Ave., Bennington, says: "For some time I was troubled with dull pains across my back. Moving about at my work greatly aggravated the trouble. I learned of Doan's Kidney Pills and they helped me from the first and soon drove the pains from my back. I felt better and stronger in every way." (Statement given December 13, 1905.)

On August 23, 1915 Mr. Toomey said: "I have had very little trouble with my kidneys since using Doan's Kidney Pills. I can recommend them as an excellent kidney medicine."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Toomey has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

## GRIDIRON TEAMS IN WEST STRONG

Fight For Conference Football Title Should Be Interesting.

### MAROON OUTLOOK IS GOOD

Chicago Eleven, With Material, Ought to Have Powerful Aggregation—Hard to Figure Minnesota—Illinois Is the Dark Horse.

Always at the beginning of a season there is some doubt as to how the teams will shape up, but this year's western conference race seems easier to "dope" than in past years. From known material at hand, past performances of veterans and coaches, it would appear that Chicago and Minnesota stand the class of the "Big Nine".

The real dark horse this year is Illinois, which may be very good or very poor, according to how green material shapes up, while Purdue, Northwestern and Wisconsin all have great possibilities.

Northwestern will probably furnish the surprises of the "Big Nine" race this season, for the purple has excellent green material and a host of good veterans from last season. For the first time since Northwestern withdrew from football following the 1905 season the purple seems to have a fighting spirit. This has been instilled by Coach Fred Murphy, and if he handles his good material this year as well as he has miserable material in past seasons Minnesota and Chicago will have more respect for the Evanstonians at the close of the season than they have at present.

**Chicago's Chances Bright.**  
Chicago's chances are far brighter this year than they were last. Coach Stagg has a squad of thirty to forty players, and while much of this may be classed as deadwood, there probably will be enough material to form two elevens, a condition Chicago has not faced for several years. Chicago has many veterans back, the class of the 1915 team in fact, with the exception of Captain Russell, while the sophomore material is far above par. One of the strong points in Chicago's favor which has been overlooked by many critics is that Coach Stagg is in better physical condition this year than he has been any fall for several seasons past.

Minnesota's exact strength cannot be told for some time yet, for several of the Gopher veterans are still on the ineffectuality list and their status will not be finally determined until later. This is always the case at the Minneapolis school, and while past experience shows that the majority of men chosen as d-outfit eventually square themselves with the faculty, it is not safe to count upon this for a certainty.

With a wealth of veteran material, an exceptionally clever lot of sophomores and a coach of the standing and ability of Dr. Harry Williams, however, Gopher rooters have the right to count their team favorite for the hunting.

**Wisconsin's Status Doubtful.**  
Wisconsin's status is doubtful. As a new coach who faces the problem of instilling heart into a thoroughly disheartened lot of veterans, Coach Whittington may be pardoned for refraining from any predictions. There has been a tendency to discount eastern coaches in the middle west for the last ten years, but since "open" football has been adopted by Harvard, Whittington may even outstep the west in this particular. There is much good material at Madison.

Purdue, which for the last three years has been making giant strides toward a championship, may be counted upon to keep up her work.

None of the other three members of the "Big Nine" is counted as particularly dangerous. In Coach Jones Iowa has secured a new mentor whose forte probably will be defensive play. However, the Hawkeyes learned enough of a tricky offense under Hawley in the last three years to make them formidable in that department. Indiana will be handicapped by the fact that many of her veterans are in Texas with the state guard and at best will be unable
